How to Care for your UCS Soccer Goal

- Soccer goals should be properly installed as per general installation instructions.
- Nets should be stored inside at the end of each season.
- DO NOT CLIMB OR HANG FROM THE GOAL FRAMEWORK OR NET.
- Do not attempt to use the goal during inclement weather, especially during lightning storms.
- Use soccer goals only on level fields.
- Always anchor portable soccer goals. Unsecured goals can fall over causing serious injury or death. Use the fasteners supplied with the goal or you may purchase a UCS access frame kit to secure portable soccer goals to football goal posts.
