Like it or not, we live in a global community which facilitates the transmission of SARS, Avian Flu, Herpes, HIV, Influenza, Staph, Pseudomonas, Salmonella, and other common bacteria, virus, and fungus which threaten our health and well being. It is clear that a new technology disinfectant is now required to stay ahead of the spread of these pathogens. BioSilver is this product, a revolutionary new disinfectant EPA registered and based on patented Silver Ion Technology. Please contact UCS to purchase.
