## Safe Methods for Gymnastics

• Any activity involving motion, rotation or height may cause serious accidental injuries resulting in paralysis or even death.

• Wear appropriate attire. Do not wear jewelry.

• Make sure it is properly positioned before use.

• When attempting a new or difficult skill, a qualified spotter should be used. When in doubt, always use a spotter.

• Safe landings require proper landing techniques.

• Each system has printed warning labels. Become familiar with these warnings and instruct all users of the dangers as well as proper landing techniques.

• Do not use basic tumbling mats without qualified supervision.

• Only attempt new skills in

proper progression. Consult your instructor/supervisor.

• Keep equipment dry except when cleaning.

• For general cleaning, use a mild soap and water mixture applied with a damp cloth. When possible, use a disinfectant which is safe for children such as BioSilver.

**AGAINST DEFECTIVE MATERIAL AND WORKMANSHIP.**

**\*DOES NOT INCLUDE NORMAL WEAR AND TEAR.**

Like it or not, we live in a global community which facilitates the transmission of SARS, Avian Flu, Herpes, HIV, Influenza, Staph, Pseudomonas, Salmonella, and other common bacteria, virus, and fungus which threaten our health and well being. It is clear that a new technology disinfectant is now required to stay ahead of the spread of these pathogens. BioSilver is this product, a revolutionary new disinfectant EPA registered and based on patented Silver Ion Technology. Please contact UCS to purchase.

The UCS logo is rendered in a bold, blue, sans-serif font with a white outline and a slight 3D effect. The letters are spaced out, and the 'S' has a small trademark symbol. The background of the entire advertisement is a collage of images showing children in yellow and black leotards practicing gymnastics on blue mats. A large, colorful exercise ball (blue, yellow, red, green) is prominent on the right side. The overall scene is bright and active, representing a gymnastics facility.
